For a tax-exempt taxpayer, business income means only that part of federal taxable income derived from unrelated business activity. Business income includes the following:

A taxpayer that has a 52- or 53-week tax year beginning not more than 7 days before the end of any month is considered to have a tax year beginning on the first day of the subsequent month of that tax year. If the term tax year in this act is used in reference to 1 or more previous or preceding tax years and those referenced tax years are before January 1, 2012, then those referenced tax years are deemed those same tax years during which former 2007 PA 36 was in effect. Except as otherwise provided in this section, the corporate income tax base of a foreign person is subject to all adjustments and other provisions of this act. However, the corporate income tax base shall not include proceeds from sales where title passes outside the United States.

(3) Except as otherwise provided in this section, the corporate income tax base of a foreign person includes the sum of business income and the adjustments under section 201 that are related to United States business activity.

Net capital does not include up to 125% of the minimum regulatory capitalization requirements of a person subject to the tax imposed under chapter 2A.

(2) Net capital shall be determined by adding the financial institution's net capital as of the close of the current tax year and preceding 4 tax years and dividing the resulting sum by 5. If a financial institution has not been in existence for a period of 5 tax years, net capital shall be determined by adding together the financial institution's net capital for the number of tax years the financial institution has been in existence and dividing the resulting sum by the number of years the financial institution has been in existence. For purposes of this section, a partial year shall be treated as a full year.

(3) For a unitary business group of financial institutions, net capital calculated under this section does not include the investment of 1 member of the unitary business group in another member of that unitary business group.

(4) For purposes of this section, each of the following applies:

(a) A change in identity, form, or place of organization of 1 financial institution shall be treated as if a single financial institution had been in existence for the entire tax year in which the change occurred and each tax year after the change.

(b) The combination of 2 or more financial institutions into 1 shall be treated as if the constituent financial institutions had been a single financial institution in existence for the entire tax year in which the combination occurred and each tax year after the combination, and the book values and deductions for United States obligations and Michigan obligations of the constituent institutions shall be combined. A combination shall include any acquisition required to be

accounted for by the surviving financial institution in accordance with generally accepted accounting principles or a statutory merger or consolidation.

208.267 Financial institution; tax base; allocation within state; apportionment within and outside state; circumstances; gross business factor; election to continue apportionment of tax within and outside state.

(1) Except as otherwise provided under this chapter, the tax base of a financial institution whose business activities are confined solely to this state shall be allocated to this state. Except as otherwise provided under subsection (5), the tax base of a financial institution whose business activities are subject to tax both within and outside this state shall be apportioned to this state by multiplying the tax base by the gross business factor.

(2) A financial institution whose business activities are subject to tax both within and outside of this state is subject to tax in another state in either of the following circumstances:

(a) The financial institution is subject to a business privilege tax, a net income tax, a franchise tax measured by net income, a franchise tax for the privilege of doing business, or a corporate stock tax or a tax of the type imposed under this act in that state.

(b) That state has jurisdiction to subject the financial institution to 1 or more of the taxes listed in subdivision (a) regardless of whether that state does or does not subject the financial institution to that tax.

(3) Except as otherwise provided in subsection (4), the gross business factor is a fraction, the numerator of which is the total gross business of the financial institution in this state during the tax year and the denominator of which is the total gross business of the financial institution everywhere during the tax year.

(4) Except as otherwise provided under this subsection, for a financial institution that is included in a unitary business group, gross business includes gross business in this state of every financial institution included in the unitary business group without regard to whether the financial institution has nexus in this state. Gross business between financial institutions included in a unitary business group must be eliminated in calculating the gross business factor.

208.269 Financial institution; gross business.

Gross business in this state of the financial institution is determined as follows:

(1) Receipts from credit card receivables including without limitation interest and fees or penalties in the nature of interest from credit card receivables and receipts from fees charged to credit card holders such as annual fees are in this state if the billing address of the credit card holder is located in this state.

(2) Credit card issuer's reimbursement fees are in this state if the billing address of the credit card holder is located in this state.

- (a) For a loan secured by real property, if the real property for which the loan is secured is in this state.
- (b) For a loan secured by real property, if the real property for which the loan is secured is located both within and without this state and 1 or more other states and more than 50% of the fair market value of the real property is located in this state.
- (c) For a loan secured by real property, if more than 50% of the fair market value of the real property for which the loan is secured is not located within any 1 state but the borrower is located in this state.
- (d) For a loan not secured by real property, the borrower is located in this state.
- (5) Receipts from services are in this state if the recipient of the services receives all of the benefit of the services in this state. If the recipient of the services receives some of the benefit of the services in this state, the receipts are included in the numerator of the apportionment factor in proportion to the extent that the recipient receives benefit of the services in this state.
- (6) Receipts from investment assets and activities and trading assets and activities, including interest and dividends, are in this state if the financial institution's customer is in this state. If the location of the financial institution's customer cannot be determined, both of the following:
- (a) Interest, dividends, and other income from investment assets and activities and from trading assets and activities, including, but not limited to, investment securities; trading account assets; federal funds; securities purchased and sold under agreements to resell or repurchase; options; futures contracts; forward contracts; notional principal contracts such as swaps; equities; and foreign currency transactions are in this state if the average value of the assets is assigned to a regular place of business of the taxpayer within this state. Interest from federal funds sold and purchased and from securities purchased under resale agreements and securities sold under repurchase agreements are in this state if the average value of the assets is assigned to a regular place of business of the taxpayer within this state. The amount of receipts and other income from investment assets and activities is in this state if assets are assigned to a regular place of business of the taxpayer within this state.
- (b) The amount of receipts from trading assets and activities, including, but not limited to, assets and activities in the matched book, in the arbitrage book, and foreign currency transactions, but excluding amounts otherwise sourced in this section, are in this state if the assets are assigned to a regular place of business of the taxpayer within this state.
- (7) Interest charged to customers for carrying debit balances on margin accounts without deduction of any costs incurred in carrying the accounts is in this state if the customer is located in this state.
- (8) Interest from loans secured by real property is in this state if the property is located in this state, if the property is located both within this state and 1 or more other states and more than 50% of the fair market value of the real property is located in this state, and if more than 50% of the fair market value of the real property is not located within any 1 state but the borrower is located in this state.
- (9) Interest from loans not secured by real property is in this state if the borrower is located in this state.
- (10) Net gains from the sale of loans secured by real property or mortgage service rights relating to real property are in this state if the property is in this state, if the property is located both

within this state and 1 or more other states and more than 50% of the fair market value of the real property is located within this state, or if more than 50% of the fair market value of the real property is not located in any 1 state, but the borrower is located in this state.

(11) Net gains from the sale of loans not secured by real property or any other intangible assets are in this state if the depositor or borrower is located in this state.

(12) Receipts from the lease of real property are in this state if the property is located in this state.

CHAPTER 3

208.301 Tax base; apportionment; allocation; taxpayer subject to tax in another state; circumstances.

(1) Except as otherwise provided in this act, each tax base established under this act shall be apportioned in accordance with this chapter.

(2) Each tax base of a taxpayer whose business activities are confined solely to this state shall be allocated to this state. Each tax base of a taxpayer whose business activities are subject to tax both within and outside of this state shall be apportioned to this state by multiplying each tax base by the sales factor calculated under section 303.

(3) A taxpayer is subject to tax in another state in either of the following circumstances:

(a) The taxpayer is subject to a business privilege tax, a net income tax, a franchise tax measured by net income, a franchise tax for the privilege of doing business, or a corporate stock tax.

(b) That state has jurisdiction to subject the taxpayer to 1 or more of the taxes listed in subdivision (a) regardless of whether that state does or does not subject the taxpayer to that tax.

208.303 Sales factor; calculation.

(1) Except as otherwise provided in subsection (2) and section 311, the sales factor is a fraction, the numerator of which is the total sales of the taxpayer in this state during the tax year and the denominator of which is the total sales of the taxpayer everywhere during the tax year.

(2) Except as otherwise provided under this subsection, for a taxpayer that is a unitary business group, sales include sales in this state of every person included in the unitary business group without regard to whether the person has nexus in this state. Sales between persons included in a unitary business group must be eliminated in calculating the sales factor.

(3) It is the intent of the legislature that each tax base of a taxpayer is apportioned to this state by multiplying each tax base by the sales factor multiplied by 100% and that apportionment shall

not be based on property, payroll or any other factor notwithstanding section 309 of this act and MCL 205.581.

208.305 Taxpayer; determination of sales.

(1) Sales of the taxpayer in this state are determined as follows:

(a) Sales of tangible personal property are in this state if the property is shipped or delivered, or, in the case of electricity and gas, the contract requires the property to be shipped or delivered, to any purchaser within this state based on the destination at the point that the property comes to rest regardless of the free on board point or other conditions of the sales.

(b) Receipts from the sale, lease, rental, or licensing of real property are in this state if that property is located in this state.

(c) Receipts from the lease or rental or licensing of tangible personal property are sales in this state to the extent that the property is used in this state. The extent of usage of tangible personal property in this state is determined by multiplying the receipts by a fraction, the numerator of which is the number of days of physical location of the property in this state during the lease or rental period in the tax year and the denominator of which is the number of days of physical location of the property everywhere during all lease or rental periods in the tax year. If the physical location of the property during the lease or rental period is unknown or cannot be determined, the tangible personal property is utilized in the state in which the property was located at the time the lease or rental payer obtained possession. Prewritten computer software is used in this state when the computer hardware accessing the software is physically located in this state.

(d) Receipts from the lease or rental of mobile transportation property owned by the taxpayer are in this state to the extent that the property is used in this state. The extent an aircraft will be deemed to be used in this state and the amount of receipts that is to be included in the numerator of this state's sales factor is determined by multiplying all the receipts from the lease or rental of the aircraft by a fraction, the numerator of the fraction is the number of landings of the aircraft in this state and the denominator of the fraction is the total number of landings of the aircraft. If the extent of the use of any transportation property within this state cannot be determined, then the receipts are in this state if the property has its principal base of operations in this state.

(e) Royalties and other income received for the use of or for the privilege of using intangible property, including patents, know-how, formulas, designs, processes, patterns, copyrights, trade names, service names, franchises, licenses, contracts, customer lists, custom computer software, or similar items, are attributed to the state in which the property is used by the purchaser. If the property is used in more than 1 state, the royalties or other income shall be apportioned to this state pro rata according to the portion of use in this state. If the portion of use in this state cannot be determined, the royalties or other income shall be excluded from both the numerator and the denominator. Intangible property is used in this state if the purchaser uses the intangible property or the rights to the intangible property in the regular course of its business operations in this state, regardless of the location of the purchaser's customers.

(2) Sales from the performance of services are in this state and attributable to this state as follows:

(a) Except as otherwise provided in this section, all receipts from the performance of services are included in the numerator of the apportionment factor if the recipient of the services receives all of the benefit of the services in this state. If the recipient of the services receives some of the benefit of the services in this state, the receipts are included in the numerator of the apportionment factor in proportion to the extent that the recipient receives benefit of the services in this state. The benefit of a service is received in this state in the following:

- 1) The service relates to real property that is located entirely in this state.
- 2) The service relates to tangible personal property that (a) is owned or leased by the purchaser and located in this state at the time that the service is received, or (b) is delivered to the purchaser or the purchaser's designee(s) in this state.
- 3) The service is provided to a purchaser who is an individual physically present in this state at the time that the service is received.
- 4) The services are received in this state and are in the nature of personal services, such as consulting, counseling, training, speaking, and providing entertainment, that are typically conducted or performed first-hand, on a direct, one-to-one or one-to-many basis.
- 5) The service is provided to a purchaser that is engaged in a trade or business in this state and relates only to the trade or business of that purchaser in this state.
- 6) The service relates to the use of intangible property such as custom computer software (other than prewritten computer software), licenses, designs, processes, patents, and copyrights, which is used entirely in this state.
- 7) The services provided are professional in nature, such as legal or accounting services, and are provided to a purchaser that is an individual domiciled in this state, or to a purchaser with business operations only in Michigan.

(b) Sales derived from securities brokerage services attributable to this state are determined by multiplying the total dollar amount of receipts from securities brokerage services by a fraction, the numerator of which is the sales of securities brokerage services to customers within this state, and the denominator of which is the sales of securities brokerage services to all customers. Receipts from securities brokerage services include commissions on transactions, the spread earned on principal transactions in which the broker buys or sells from its account, total margin interest paid on behalf of brokerage accounts owned by the broker's customers, and fees and receipts of all kinds from the underwriting of securities. If receipts from brokerage services can be associated with a particular customer, but it is impractical to associate the receipts with the address of the customer, then the address of the customer shall be presumed to be the address of the branch office that generates the transactions for the customer.

(c) Sales of services that are derived directly or indirectly from the sale of management, distribution, administration, or securities brokerage services to, or on behalf of, a regulated investment company or its beneficial owners, including receipts derived directly or indirectly from trustees, sponsors, or participants of employee benefit plans that have accounts in a

regulated investment company, shall be attributable to this state to the extent that the shareholders of the regulated investment company are domiciled within this state. For purposes of this subdivision, "domicile" means the shareholder's mailing address on the records of the regulated investment company. If the regulated investment company or the person providing management services to the regulated investment company has actual knowledge that the shareholder's primary residence or principal place of business is different than the shareholder's mailing address, then the shareholder's primary residence or principal place of business is the shareholder's domicile. A separate computation shall be made with respect to the receipts derived from each regulated investment company. The total amount of sales attributable to this state shall be equal to the total receipts received by each regulated investment company multiplied by a fraction determined as follows:

- (i) The numerator of the fraction is the average of the sum of the beginning-of-year and end-of-year number of shares owned by the regulated investment company shareholders who have their domicile in this state.
 - (ii) The denominator of the fraction is the average of the sum of the beginning-of-year and end-of-year number of shares owned by all shareholders.
 - (iii) For purposes of the fraction, the year shall be the tax year of the regulated investment company that ends with or within the tax year of the taxpayer.
- (3) Receipts from the origination of a loan or gains from the sale of a loan secured by residential real property is deemed a sale in this state only if 1 or more of the following apply:
- (a) The real property is located in this state.
 - (b) The real property is located both within this state and 1 or more other states and more than 50% of the fair market value of the real property is located within this state.
 - (c) More than 50% of the real property is not located in any 1 state and the borrower is located in this state.
- (4) Interest from loans secured by real property is in this state if the property is located within this state or if the property is located both within this state and 1 or more other states, if more than 50% of the fair market value of the real property is located within this state, or if more than 50% of the fair market value of the real property is not located within any 1 state, if the borrower is located in this state. The determination of whether the real property securing a loan is located within this state shall be made as of the time the original agreement was made and any and all subsequent substitutions of collateral shall be disregarded.
- (5) Interest from a loan not secured by real property is in this state if the borrower is located in this state.
- (6) Gains from the sale of a loan not secured by real property, including income recorded under the coupon stripping rules of section 1286 of the internal revenue code, are in this state if the borrower is in this state.
- (7) Receipts from credit card receivables, including interest, fees, and penalties from credit card receivables and receipts from fees charged to cardholders, such as annual fees, are in this state if the billing address of the cardholder is in this state.
- (8) Receipts from the sale of credit card or other receivables are in this state if the billing address of the customer is in this state. Credit card issuer's reimbursements fees are in this state if the

billing address of the cardholder is in this state. Receipts from merchant discounts, computed net of any cardholder chargebacks, but not reduced by any interchange transaction fees or by any issuer's reimbursement fees paid to another for charges made by its cardholders, are in this state if the commercial domicile of the merchant is in this state.

(9) Loan servicing fees derived from loans of another secured by real property are in this state if the real property is located in this state, or the real property is located both within and outside of this state and 1 or more states if more than 50% of the fair market value of the real property is located in this state, or more than 50% of the fair market value of the real property is not located in any 1 state, and the borrower is located in this state. Loan servicing fees derived from loans of another not secured by real property are in this state if the borrower is located in this state. If the location of the security cannot be determined, then loan servicing fees for servicing either the secured or the unsecured loans of another are in this state if the lender to whom the loan servicing service is provided is located in this state.

(10) Receipts from the sale of securities and other assets from investment and trading activities, including, but not limited to, interest, dividends, and gains are in this state in either of the following circumstances:

(a) The person's customer is in this state.

(b) If the location of the person's customer cannot be determined, both of the following:

(i) Interest, dividends, and other income from investment assets and activities and from trading assets and activities, including, but not limited to, investment securities; trading account assets; federal funds; securities purchased and sold under agreements to resell or repurchase; options; futures contracts; forward contracts; notional principal contracts such as swaps; equities; and foreign currency transactions are in this state if the average value of the assets is assigned to a regular place of business of the taxpayer within this state. Interest from federal funds sold and purchased and from securities purchased under resale agreements and securities sold under repurchase agreements are in this state if the average value of the assets is assigned to a regular place of business of the taxpayer within this state. The amount of receipts and other income from investment assets and activities is in this state if assets are assigned to a regular place of business of the taxpayer within this state.

(ii) The amount of receipts from trading assets and activities, including, but not limited to, assets and activities in the matched book, in the arbitrage book, and foreign currency transactions, but excluding amounts otherwise sourced in this section, are in this state if the assets are assigned to a regular place of business of the taxpayer within this state.

(11) Receipts from transportation services rendered by a person subject to tax in another state are in this state and shall be attributable to this state as follows:

(a) Except as otherwise provided in subdivisions (b) through (e), receipts shall be proportioned based on the ratio that revenue miles of the person in this state bear to the revenue miles of the person everywhere.

(b) Receipts from maritime transportation services shall be attributable to this state as follows:

(i) 50% of those receipts that either originate or terminate in this state.

(ii) 100% of those receipts that both originate and terminate in this state.

(c) Receipts attributable to this state of a person whose business activity consists of the transportation both of property and of individuals shall be proportioned based on the total gross receipts for passenger miles and ton mile fractions, separately computed and individually weighted by the ratio of gross receipts from passenger transportation to total gross receipts from all transportation, and by the ratio of gross receipts from freight transportation to total gross receipts from all transportation, respectively.

(d) Receipts attributable to this state of a person whose business activity consists of the transportation of oil by pipeline shall be proportioned based on the ratio that the gross receipts for the barrel miles transported in this state bear to the gross receipts for the barrel miles transported by the person everywhere.

(e) Receipts attributable to this state of a person whose business activities consist of the transportation of gas by pipeline shall be proportioned based on the ratio that the gross receipts for the 1,000 cubic feet miles transported in this state bear to the gross receipts for the 1,000 cubic feet miles transported by the person everywhere.

(12) For purposes of subsection (11), if a taxpayer can show that revenue mile information is not available or cannot be obtained without unreasonable expense to the taxpayer, receipts attributable to this state shall be that portion of the revenue derived from transportation services everywhere performed that the miles of transportation services performed in this state bears to the miles of transportation services performed everywhere. If the department determines that the information required for the calculations under subsection (11) are not available or cannot be obtained without unreasonable expense to the taxpayer, the department may use other available information that in the opinion of the department will result in an equitable allocation of the taxpayer's receipts to this state.

(13) Except as provided in subsections (14) through (19), receipts from the sale of telecommunications service or mobile telecommunications service are in this state if the customer's place of primary use of the service is in this state. As used in this subsection, "place of primary use" means the customer's residential street address or primary business street address where the customer's use of the telecommunications service primarily occurs. For mobile telecommunications service, the customer's residential street address or primary business street address is the place of primary use only if it is within the licensed service area of the customer's home service provider.

(14) Receipts from the sale of telecommunications service sold on an individual call-by-call basis are in this state if either of the following applies:

(a) The call both originates and terminates in this state.

(b) The call either originates or terminates in this state and the service address is located in this state.

(15) Receipts from the sale of postpaid telecommunications service are in this state if the origination point of the telecommunication signal, as first identified by the service provider's telecommunication system or as identified by information received by the seller from its service provider if the system used to transport telecommunication signals is not the seller's, is located in this state.

(16) Receipts from the sale of prepaid telecommunications service or prepaid mobile telecommunications service are in this state if the purchaser obtains the prepaid card or similar

means of conveyance at a location in this state. Receipts from recharging a prepaid telecommunications service or mobile telecommunications service is in this state if the purchaser's billing information indicates a location in this state.

(17) Receipts from the sale of private communication services are in this state as follows:

(a) 100% of the receipts from the sale of each channel termination point within this state.

(b) 100% of the receipts from the sale of the total channel mileage between each termination point within this state.

(c) 50% of the receipts from the sale of service segments for a channel between 2 customer channel termination points, 1 of which is located in this state and the other is located outside of this state, which segments are separately charged.

(d) The receipts from the sale of service for segments with a channel termination point located in this state and in 2 or more other states or equivalent jurisdictions, and which segments are not separately billed, are in this state based on a percentage determined by dividing the number of customer channel termination points in this state by the total number of customer channel termination points.

(18) Receipts from the sale of billing services and ancillary services for telecommunications service are in this state based on the location of the purchaser's customers. If the location of the purchaser's customers is not known or cannot be determined, the sale of billing services and ancillary services for telecommunications service are in this state based on the location of the purchaser.

(19) Receipts to access a carrier's network or from the sale of telecommunications services for resale are in this state as follows:

(a) 100% of the receipts from access fees attributable to intrastate telecommunications service that both originates and terminates in this state.

(b) 50% of the receipts from access fees attributable to interstate telecommunications service if the interstate call either originates or terminates in this state.

(c) 100% of the receipts from interstate end user access line charges, if the customer's service address is in this state. As used in this subdivision, "interstate end user access line charges" includes, but is not limited to, the surcharge approved by the federal communications commission and levied pursuant to 47 CFR 69.

(d) Gross receipts from sales of telecommunications services to other telecommunication service providers for resale shall be sourced to this state using the apportionment concepts used for non-resale receipts of telecommunications services if the information is readily available to make that determination. If the information is not readily available, then the taxpayer may use any other reasonable and consistent method.

(20) Terms used in subsections (13) through (20) have the same meaning as those terms defined in the streamlined sales and use tax agreement administered under the streamlined sales and use tax administration act, 2004 PA 174, MCL 205.801 to 205.833.

(21) For purposes of this section, a borrower is considered located in this state if the borrower's billing address is in this state.

208.309 Apportionment; petition; alternate method; rebuttable presumption that apportionment provisions fairly represent business activity; return or amended return not considered as petition.

(1) If the apportionment provisions of this act do not fairly represent the extent of the taxpayer's business activity in this state, the taxpayer may petition for or the treasurer may require the following, with respect to all or a portion of the taxpayer's business activity, if reasonable:

(a) Separate accounting.

(b) The inclusion of 1 or more additional or alternative factors that will fairly represent the taxpayer's business activity in this state.

(c) The use of any other method to effectuate an equitable allocation and apportionment of the taxpayer's tax base.

(2) An alternate method may be used only if it is approved by the department.

(3) The apportionment provisions of this act shall be rebuttably presumed to fairly represent the business activity attributed to the taxpayer in this state, taken as a whole and without a separate examination of the specific elements of either tax base unless it can be demonstrated that the business activity attributed to the taxpayer in this state is out of all appropriate proportion to the actual business activity transacted in this state and leads to a grossly distorted result or would operate unconstitutionally to tax the extraterritorial activity of the taxpayer.

(4) The filing of a return or an amended return is not considered a petition for the purposes of subsection (1).

208.311 Receipts; source.

All other receipts not otherwise sourced under this act shall be sourced based on where the benefit to the customer is received or, if where the benefit to the customer is received cannot be determined, to the customer's billing address.

CHAPTER 4

208.401 Small Business Credit.

(1) The credit provided in this section shall be taken before any other credit under this act and is available to any corporation, other than those taxpayers subject to the tax imposed under chapters 2A or 2B, with gross receipts that do not exceed \$20,000,000.00 and with adjusted business income minus the loss adjustment that does not exceed \$1,300,000.00 as adjusted annually for inflation using the Detroit consumer price index and subject to the following:

(a) A corporation is disqualified if either of the following occur for the respective tax year:

(i) Compensation and directors' fees of a shareholder or officer exceed \$180,000.00.

(ii) The sum of the following amounts exceeds \$180,000.00:

(A) Compensation and directors' fees of a shareholder.

(B) The product of the percentage of outstanding ownership or of outstanding stock owned by that shareholder multiplied by the difference between the sum of business income and, to the extent deducted in determining federal taxable income, a carryback or a carryover of a net operating loss or capital loss, minus the loss adjustment.

(c) Subject to the reduction percentage determined under subsection (3), the credit determined under this subsection shall be reduced by the following percentages in the following circumstances:

(i) If compensation and directors' fees of a shareholder or officer are, or if the sum of the amounts in subdivision (a)(ii)(A) and (B) is, more than \$160,000.00 but less than \$165,000.00, the credit is reduced by 20%.

(ii) If compensation and directors' fees of a shareholder or officer are, or if the sum of the amounts in subdivision (a)(ii)(A) and (B) is, \$165,000.00 or more but less than \$170,000.00, the credit is reduced by 40%.

(iii) If compensation and directors' fees of a shareholder or officer are, or if the sum of the amounts in subdivision (a)(ii)(A) and (B) is, \$170,000.00 or more but less than \$175,000.00, the credit is reduced by 60%.

(iv) If compensation and directors' fees of a shareholder or officer are, or if the sum of the amounts in subdivision (a)(ii)(A) and (B) is, \$175,000.00 or more but not in excess of \$180,000.00, the credit is reduced by 80%.

(2) For the purposes of determining disqualification under subsection (1), an active shareholder's share of business income shall not be attributed to another active shareholder.

(3) The reduction percentage is the greater of the following:

(a) The reduction percentage based on the compensation and directors' fees of the shareholder or officer with the greatest amount of compensation and directors' fees.

(b) The reduction percentage based on the sum of the amounts in subsection (1)(a)(ii)(A) and (B) for the shareholder or officer with the greatest sum of the amounts in subsection (1)(a)(ii)(A) and (B).

(4) A corporation that qualifies under subsection (1) is allowed a credit against the tax imposed under this act. The credit under this subsection is the amount by which the tax imposed under this act exceeds 1.8% of adjusted business income.

(5) If gross receipts exceed \$19,000,000.00, the credit shall be reduced by a fraction, the numerator of which is the amount of gross receipts over \$19,000,000.00 and the denominator of which is \$1,000,000.00. The credit shall not exceed 100% of the tax liability imposed under this act.

(6) For a corporation that reports for a tax year less than 12 months, the amounts specified in this section for gross receipts, adjusted business income, and share of business income shall be multiplied by a fraction, the numerator of which is the number of months in the tax year and the denominator of which is 12.

(7) The department shall permit a corporation that elects to claim the credit allowed under this section based on the amount by which the tax imposed under this act exceeds the percentage of adjusted business income for the tax year as determined under subsection (4), and that is not

required to reduce the credit pursuant to subsection (1) or (5), to file and pay the tax imposed by this act without computing the tax imposed under sections 201.

(8) Compensation paid by a professional employer organization to the officers of the client and to employees of the professional employer organization who are assigned or leased to and perform services for the client shall be included in determining eligibility of the client under this section.

- (2) For taxpayers on a calendar year basis, the quarterly returns and estimated payments shall be made by April 15, July 15, October 15, and January 15. Taxpayers not on a calendar year basis shall file quarterly returns and make estimated payments on the appropriate due date which in the taxpayer's fiscal year corresponds to the calendar year.
- (3) Except as otherwise provided under this subsection, the estimated payment made with each quarterly return of each tax year shall be for the estimated corporate income tax base and franchise tax base for the quarter or 25% of the estimated annual liability. The second, third, and fourth estimated payments in each tax year shall include adjustments, if necessary, to correct underpayments or overpayments from previous quarterly payments in the tax year to a revised estimate of the annual tax liability. For a taxpayer that calculates and pays estimated payments for federal income tax purposes pursuant to section 6655(e) of the internal revenue code, that taxpayer may use the same methodology as used to calculate the annualized income installment or the adjusted seasonal installment, whichever is used as the basis for the federal estimated payment, to calculate the estimated payments required each quarter under this section (4) The interest and penalty provided by this act shall not be assessed if any of the following occur:
 - (a) If the sum of the estimated payments equals at least 85% of the liability and the amount of each estimated payment reasonably approximates the tax liability incurred during the quarter for which the estimated payment was made.
 - (b) For the 2012 tax year and each subsequent tax year, if the preceding year's tax liability under this act was \$20,000.00 or less and if the taxpayer submitted 4 equal installments the sum of which equals the immediately preceding tax year's tax liability.
- (4) Each estimated return shall be made on a form prescribed by the department and shall include an estimate of the annual tax liability and other information required by the state treasurer. The form prescribed under this subsection may be combined with any other tax reporting form prescribed by the department.

(6) Payments made under this section shall be a credit against the payment required with the annual tax return required in section 505.

(7) If the department considers it necessary to insure payment of the tax or to provide a more efficient administration of the tax, the department may require filing of the returns and payment of the tax for other than quarterly or annual periods.

(8) A taxpayer that elects under the internal revenue code to file an annual federal income tax return by March 1 in the year following the taxpayer's tax year and does not make a quarterly estimate or payment, or does not make a quarterly estimate or payment and files a tentative annual return with a tentative payment by January 15 in the year following the taxpayer's tax year and a final return by April 15 in the year following the taxpayer's tax year, has the same option in filing the estimated and annual returns required by this act.

208.503 Computation of tax for portion of year.

If a taxpayer's tax year to which this act applies ends before December 31, 2012 then a taxpayer subject to this act may elect to compute the tax imposed by this act for the portion of that tax year to which this act applies or that first tax year in accordance with 1 of the following methods:

(a) The tax may be computed as if this act were effective on the first day of the taxpayer's annual accounting period and the amount computed shall be multiplied by a fraction, the numerator of which is the number of months in the taxpayer's first tax year and the denominator of which is the number of months in the taxpayer's annual accounting period.

(b) The tax may be computed by determining the corporate income tax base and franchise tax base in the first tax year in accordance with an accounting method satisfactory to the department that reflects the actual business income tax base and franchise tax base attributable to the period.

208.505 Annual or final return; date of filing; extension.

(1) An annual or final return shall be filed with the department in the form and content prescribed by the department by the last day of the fourth month after the end of the taxpayer's tax year. Any final liability shall be remitted with this return. (2) The department, upon application of the taxpayer and for good cause shown, may extend the date for filing the annual return. Interest at the rate under section 23(2) of 1941 PA 122, MCL 205.23, shall be added to the amount of the tax unpaid for the period of the extension. The treasurer shall require with the application payment of the estimated tax liability unpaid for the tax period covered by the extension.

(3) If a taxpayer is granted an extension of time within which to file the federal income tax return for any tax year, the filing of a copy of the request for extension together with a tentative return and payment of an estimated tax with the department by the due date provided in subsection (1) shall automatically extend the due date for the filing of an annual or final return under this act

until the last day of the eighth month following the original due date of the return. Interest at the rate under section 23(2) of 1941 PA 122, MCL 205.23, shall be added to the amount of the tax unpaid for the period of the extension.

A unitary business group shall file a combined return that includes each United States person, other than a foreign operating entity, that is included in the unitary business group. Each United States person included in a unitary business group or included in a combined return shall be treated as a single person and all transactions between those persons included in the unitary business group shall be eliminated from the corporate income tax base, franchise tax base, and the apportionment formula under this act. If a United States person included in a unitary business group or included in a combined return is subject to the tax under chapter 2A or 2B any corporate income attributable to that person shall be eliminated from the corporate income tax base and any sales attributable to that person shall be eliminated from the apportionment formula under this act.

208.513 Administration of tax; rules; forms; preparation and publication of statistics.

(1) The tax imposed by this act shall be administered by the department of treasury pursuant to 1941 PA 122, MCL 205.1 to 205.31, and this act. If a conflict exists between 1941 PA 122, MCL 205.1 to 205.31, and this act, the provisions of this act apply.

and of exercising the various options contained in this act, the making of returns, and the ascertainment, assessment, and collection of the tax imposed under this act.

(4) The tax imposed by this act is in addition to all other taxes for which the taxpayer may be liable.

(5) The department shall prepare and publish statistics from the records kept to administer the tax imposed by this act that detail the distribution of tax receipts by type of business, legal form of organization, sources of tax base, timing of tax receipts, and types of deductions. The statistics shall not result in the disclosure of information regarding any specific taxpayer.

208.515 Distribution to general fund-

The revenue collected under this act shall be distributed to the general fund.

208.517 Implementation of act; appropriation; carrying forward unexpended funds.

There is appropriated to the department for the 2011-2012 state fiscal year the sum of \$XX,000,000.00 to begin implementing the requirements of this act. Any portion of this amount under this section that is not expended in the 2011-2012 state fiscal year shall not lapse to the general fund but shall be carried forward in a work project account that is in compliance with section 451a of the management and budget act, 1984 PA 431, MCL 18.1451a, for the following state fiscal year.

208.519 Severability of provisions.

If a final order of a court of competent jurisdiction for which all rights of appeal have been exhausted or have expired determines that any provision of this act that provides a deduction, credit, or exemption with respect to employment, persons, services, investment, or any other activity that is limited only to this state is unconstitutional or applies to employment, persons, services, investment, or any other activity outside of this state, that credit, deduction, or exemption shall be severed and shall not be in effect for any other tax year for which the final order shall apply, and the remaining provisions of this act shall remain in effect.
